

# SALON TRACKER

management software

## **WINDOWS UPDATES**

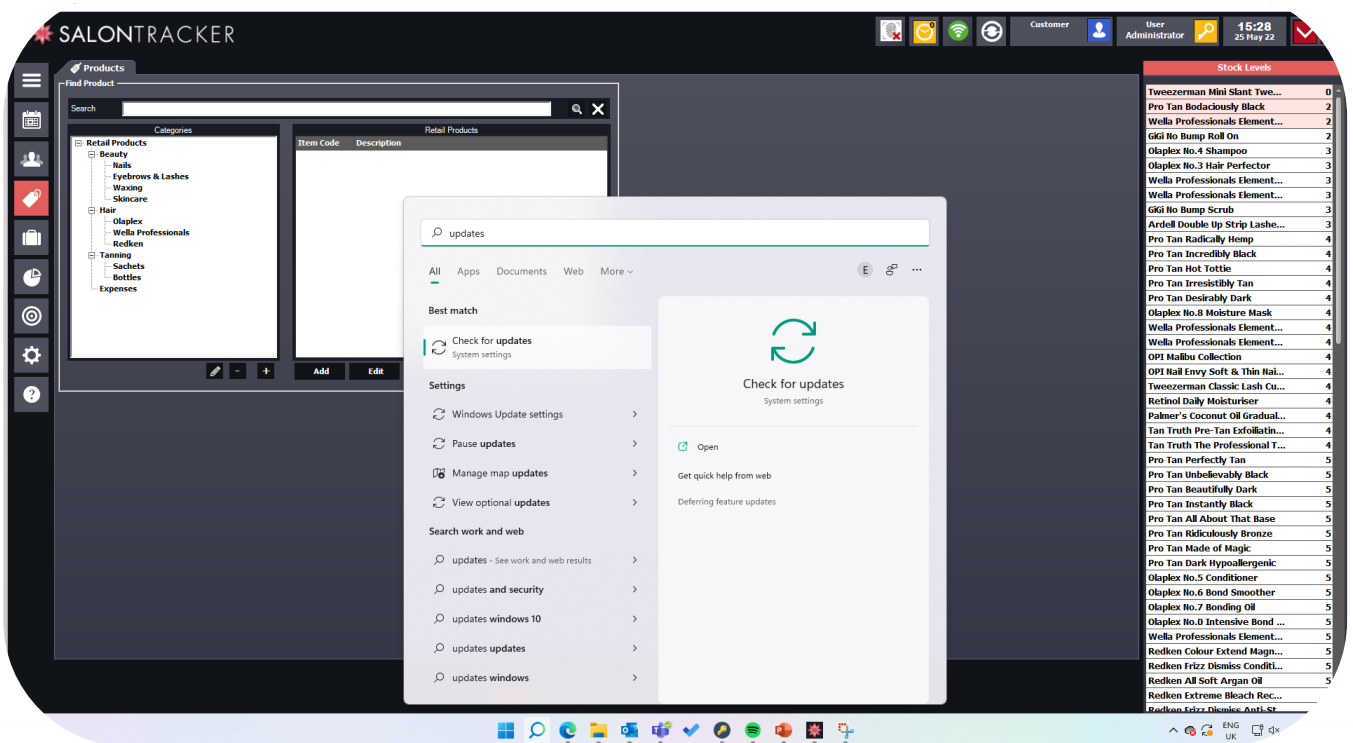

# WINDOWS UPDATES

1. Windows updates may be the cause of several issues with Salon Tracker – whether it be hardware not working or the system running slow
2. To access these, type in ‘updates’ in your search bar

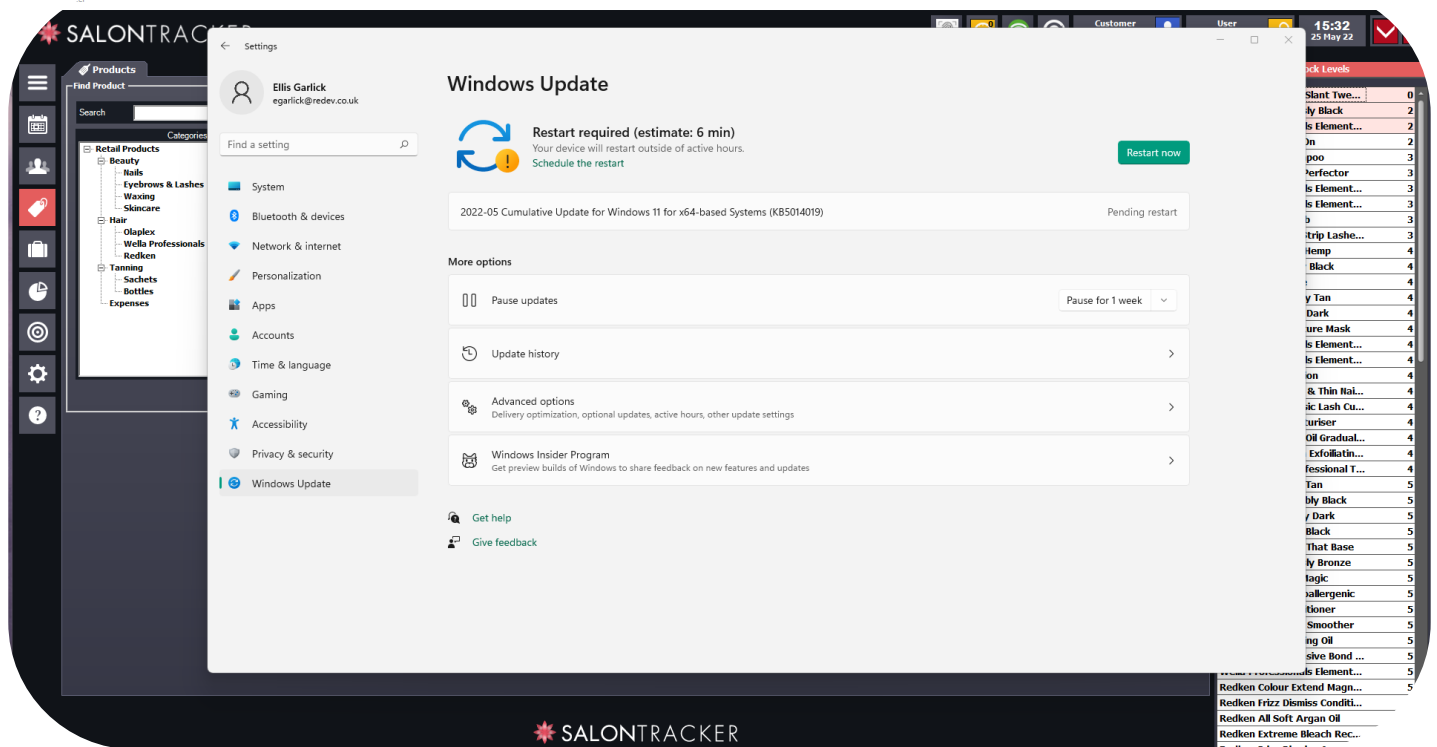

# WINDOWS UPDATES

## 3. Select 'Check for updates'

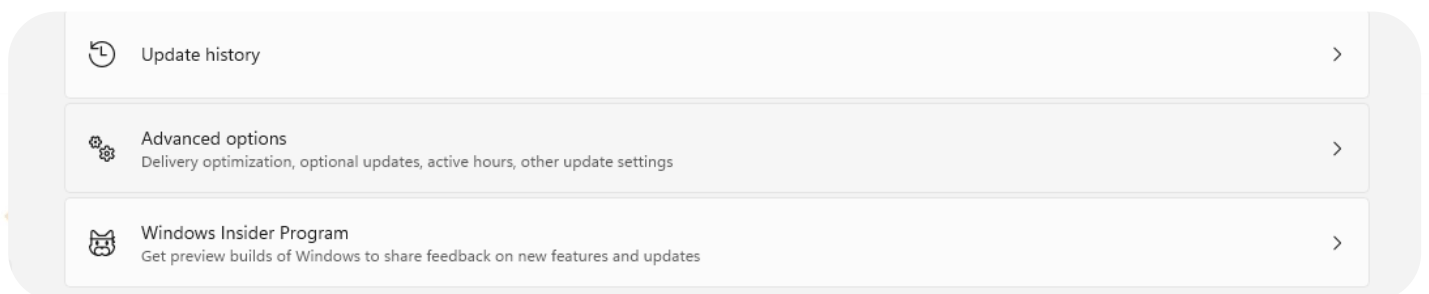

# WINDOWS UPDATES

4. Press 'Download' or 'Download & Install' for any updates that appear

5. There may also be some optional updates, these can be found under 'advanced options'

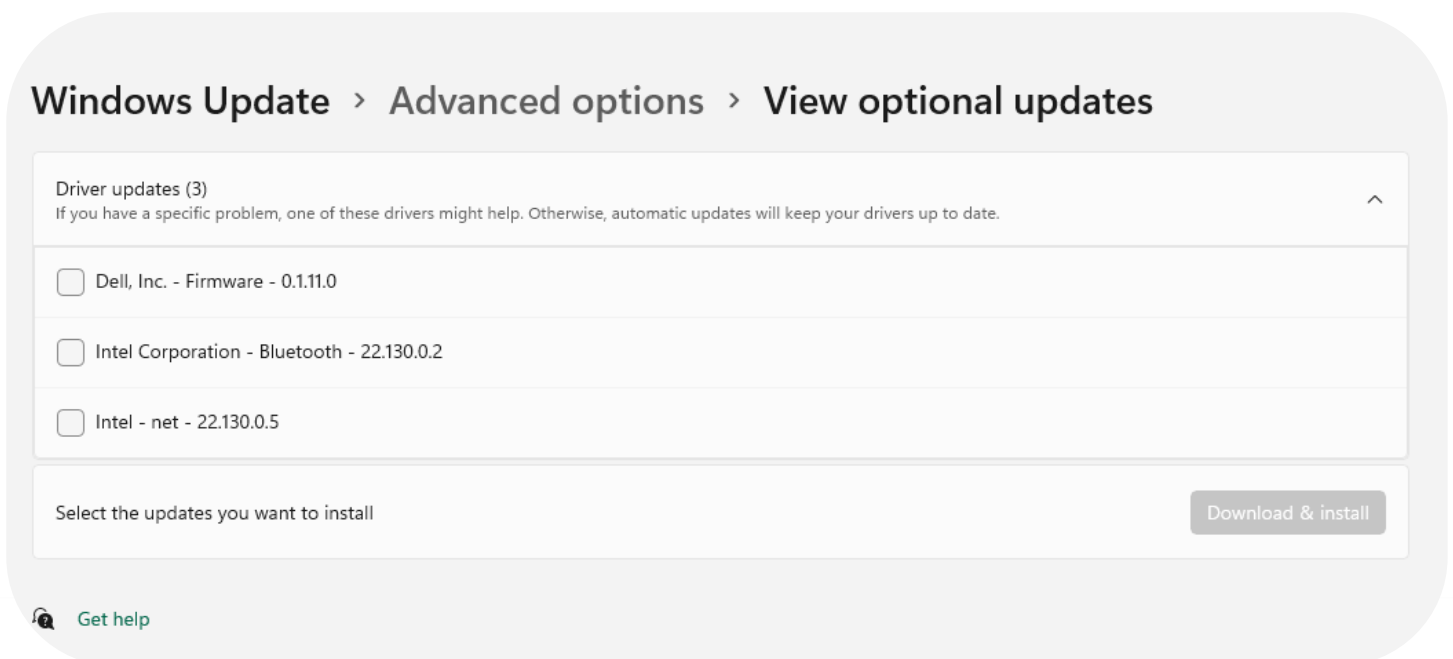

# WINDOWS UPDATES

## 6. Then select 'Optional Updates'

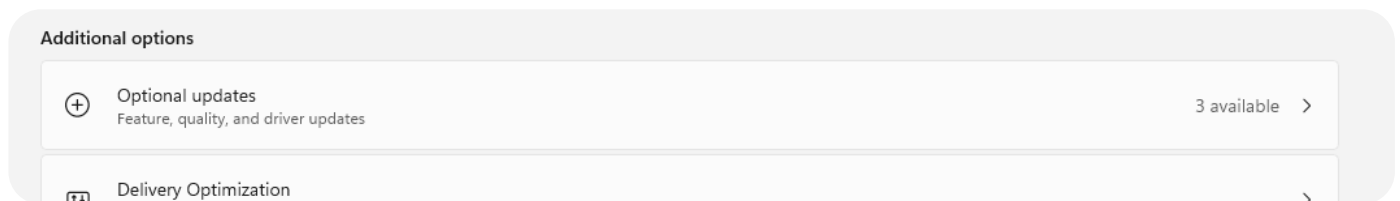

## 7. Select all available updates and press 'Download & Install'

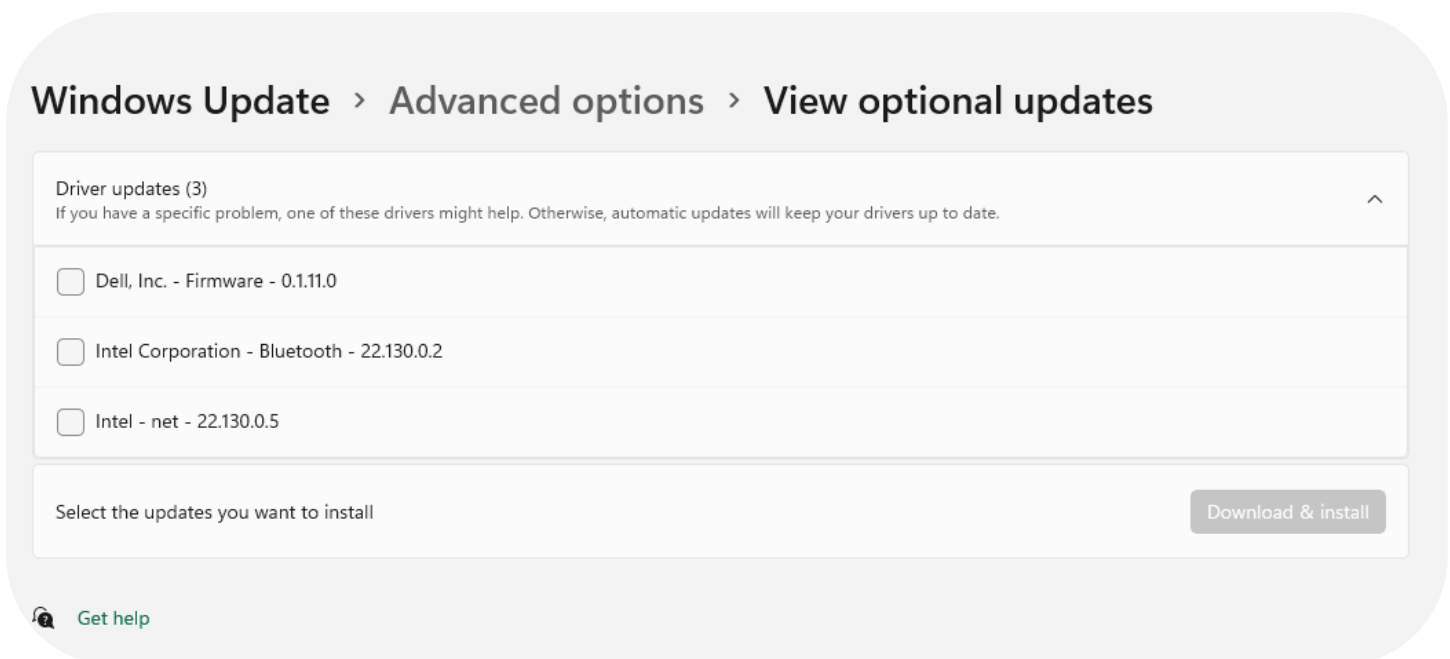

# WINDOWS UPDATES

## 6. Then select 'Optional Updates'

## 7. Select all available updates and press 'Download & Install'

## 7. Once all the updates are downloaded, you may need to restart your PC.

# **WINDOWS UPDATES**

If the hardware isn't working still or your PC is still running slow,  
please see our other support guides.

Please call our support line 0113 350 8232 and we will be able to  
resolve the issue for you.
